THE PAPER OF THE WORKING PEOPLE

JOHNSON AND HOOVER

The Johnson papers, owned in the main
by men who have some kind of a state
job they want to hold on to, are attribut-
ing every crime in the calendar to such
papers as have the temerity to prefer
Hoover to Johnson as a nominee for the
presidency.

The News is just such a paper, and can-
not be classed among the group actuated
by partisan prejudices, for we have no
partisanship whatever, and don't ever
expect to have any until politics is
purged of a whole lot of its rottenness
and cleaned up of its gangs of profession-
al politicians.

This paper takes the stand that it will
support some such good man as Hoover,
no matter what party nominates him, so
the partisan mudslinging don't touch us
at all.

As between California's endorsement of
either of these men we cannot see where
there should be any choice at all. We do
not expect to see either one of them
nominated, as far as that is concerned,
as there are too many millions back of
others in the eastern and middle western
states, but as between the two we should
much prefer Hoover.

Our reasons for that are: Johnson is
a professional politician, just exactly
what we want to get rid of, and Hoover
is not. Johnson made good in some things
as governor here, and in others fell down
lamentably. He gave us some good laws,
but he built up a political machine such
as nobody on earth ever excelled, with
the result that today we of California are
tax-ridden like a lot of burros. Because
of that Johnson machine and the thou-
sands of tax-eating hirelings it keeps up
for no other reason on earth than reasons
that are political, California's per capita
taxation is today the greatest of any
other one state in America, with the one
exception of Pennsylvania, where the old
Matt Qua machine always has stolen the
shingles off the roof and the paper off
the wall.

Hiram Johnson is a smart man and a
very forceful man, and had he stuck by
the people as he started out to when
we were bucking the old S. P. machine,
he could have had anything he wanted,
including the presidency—but he fell
for tricky politics. And now he is still at
it. Our judgment is that in fighting the
League of Nations and the peace treaty
he did so for tricky political reasons, and
for no other reasons.

We know little of Hoover, but he ap-
pears to be clean and honest, as there
has been no scandal about the stupen-
dous world job he successfully handled.
He must have great executive ability, or
he could not have accomplished what he
did. He is not a politician, which is to
his credit and in his favor.

It is not unlikely that a dark horse
may be sprung and get the nominations
of both parties. In that event The News
is going to do all it can for whichever
it believes to be the best man, irrespec-
tive of party.

If you would be a happy man, you must con-
trol your greed; eat rice and mashes made
of bran, and other cattle feed. For if your health
is on the blink, you cannot happy be; be careful
what you eat and drink, and you'll be filled with
glue.

LIGHT ON THE MEAT PROBLEM

The London Times says this week:
"The glut of imported meat grows
worse. As a result of rationing during
the last two years, the consumption of
beef and mutton in this country was
greatly reduced, and people, having once
accustomed themselves to eating less, are
still restricting their purchases, although
ample supplies are now available."

It is estimated that there are 100,000
tons of meat in cold storage in certain
parts of Great Britain. It is said that
eight vessels now in dock have on board
the equivalent of 1,000,000 carcasses, and
two other meat ships lying in the river
carry approximately 315,000 carcasses.
Another cold storage warehouse contains
1,650,000 carcasses, and in other parts
of England 3,300,000 carcasses are stored.
It is estimated that in England, in stor-
age today, are the carcasses of almost
7,000,000 steers, while in the United
States the British food ministry has in
our warehouses more than 300,000,000
pounds of hog products alone.

It was not so long ago that an official
report showed that almost 250,000 chil-
dren in New York city were undernour-
ished.

Yet we suppose that before long we
shall discover another plan to aid poor,
hungry Great Britain by a loan. Exam-
iner.

THINKOGRAPHS

Some men never save for a rainy day until
they feel the rain drops.

The average man thinks a satisfactory income
is about twice what he is making.

A lady who pays eleven plunks for a fancy
knitting bag has not much left for yarn.

One great trouble in the school of life is that
too many Freshmen think they are Seniors.

Proof is the main point in law, but elsewhere
rumors are often sufficient to convict.

Women are often very unreasonable, and they
resemble men in several other respects.

Don't kick if your plate in a restaurant seems
damp. That is probably your portion of soup.

An Irish spinster says the man she will marry
hasn't been born yet, and his mother is dead.

Almost anything can happen; men have been
known to save money by employing lawyers.

There are a number of loafers who spend
their spare time urging the importance of in-
dustry.

A married man soon gets to feeling like an
attorney whose objections are always being over-
ruled.

Most of the dreams of getting rich never come
true, or it would be difficult to get anyone
to do the work.

Don't be discouraged if some people criticize
you. A lot of people are even displeased with
the Lord.

If your worry is limited to the future welfare
of the race, the chances are you aren't losing
much sleep.

There are so many ways of making a fool of
oneself, that one can't hope to corner the pro-
cess, although some try.

Inside Facts

It's what's inside
your battery that
makes it live long or
wear out quickly.

Interior insulation
wears out before the
plates do, and re-in-
sulation is necessary.
Threaded Rubber
Insulation greatly
prolongs and almost
always entirely elimi-
nates the need of re-
insulation; makes a
battery last much
longer under equal
conditions, and re-
duces the liability to
any other kind of re-
pairs.

It's the one biggest
battery improvement in
ten years—demonstrated
now by four years of
use. You can't af-
ford not to know about
it for some day you'll
need a new battery.
Call and let us tell
you all about it.

JOHNSON AND

...of old... The agency will be located in the new, high building now being constructed at Thirteenth and Macdonald. The lease secured by Strom is a long one and practically assures the purchase of the building for the Dodge agency.

Strom recently returned from a tour of the principal cities in California, where he secured the latest models in automobile salesrooms. He plans to incorporate many of these in his new home.

TELEGRAPH

(Continued from Page One)
Ten senators had reversed their positions, since the unfavorable vote several weeks ago.

WILL ATTEMPT TO END SHIPYARD STRIKE

SAN FRANCISCO, March 30.—The mayor's committee of supervisors appointed to seek a termination of the shipyard strike will meet tomorrow morning in the city hall with the international officers of the metal trades unions who are here to seek an adjustment. It was rumored today that a compromise offer of settlement is under discussion between these officers and the shipyard owners.

S. F. MAN KILLED BY CUSTOMS OFFICIALS

EL PASO, Texas, March 30.—Harold Halstead, of San Francisco, was shot and killed shortly before midnight last night sixty-nine miles east of here while en route to Sierra Blanca, Texas, with Chas. Crawford, when he mistook customs officials for highwaymen and speeded up his automobile instead of halting when commanded to do so, according to a report received here today.

NOTICE

Richmond Chapter, No. 113, Royal Arch Masons, will entertain with a social dance at Masonic lodge rooms on Wednesday evening, March 31. For Master Masons and families only.
A. C. BURDICK, Secy.

Old Time County Educator Dead

MARTINEZ, March 30.—Allan McDonald, better known by his name in religion, Brother Victor, who has been associated with the De La Salle Institute here for the past forty years, died at the institute yesterday following an illness of several years. He was a native of Prince Edward Island, aged 72 years. He came to California when 24 and joined the Order of Christian Brothers in Oakland in 1875. Shortly afterwards he came to Martinez and has since been an active worker in the institute here. Probably no other member of the institute was so widely known throughout Contra Costa county.

Queen Contest Is Making Progress

The queen contest of the American Legion carnival is going ahead in fine style. The contestants are putting themselves into the campaign with all the ardor of real politicians, and each and every one of them is in the contest with the expectation of getting results. A hot fight is expected before the final closing of the contest on April 3.

Several young women already are making creditable showings in the race, among them being: Mrs. Laura B. Crampton, who is with the LaMoine Drug Company; Miss Thelma McCann, of the Bell Telephone Company; Miss Eleanor Ensign of the Foundation Company, and Miss Marion Pickard, who is with the Standard Oil Company.

The employees of the different firms represented by these young women are all backing them up loyally and the contest will probably be one of the closest ever held in the city. As the affair progresses lists of all the contestants, with their respective standings, will be published.

LOCAL FIRM GETS LARGE CONTRACT

The Richmond Roofing Company, of which F. A. Mero is head, in company with G. W. Williams, secured one of the largest roofing contracts let in recent years in the bay district yesterday. The contract covers roofing for all buildings now under construction by the Foundation Company for the Standard Oil Company at Richmond and covers a total area of approximately 500,000 square feet, or over twelve acres.

This is comparatively a new firm, but they are certainly doing the business. Among other good points about their roofs, is the fact that they can't blow off, like some do.

Mrs. Laura B. Crampton entertained the One Minute Girls with a program and light refreshments following their business meeting at the Richmond clubhouse last night. Many plans were made for summer recreation, such as hikes and swimming. The program consisted of the following numbers: Recitation, Virginia Bryant; dance, Baby Eunice Healy; vocal solo, Agnes Pieper; dance Baby Eunice Healy; vocal solo, Olive Crampton; dance, Ina Summerville; piano selections, Virginia La Selle.

REDMEN LAUNCH NEW MEMBERSHIP DRIVE

A new membership drive has been launched by Onetha Tribe of the Redmen in the hope that the new drive will bring in even more members than did the recent drive conducted by Captains William Campbell and Dan Nozalla. E. Gainford and E. Kendrick, the two captains selected to carry on the coming campaign, are confident that they can accomplish this end.

The men selected already by Captain Gainford to assist in the drive are: J. Miller, P. Noell, M. Noell, W. G. Casey and J. Barry. Captain Kendrick has chosen the following "braves" to form the nucleus of his team: Dan Nozalla, S. Sanfillipo, R. Maskell, J. Hollenbaugh and E. Roloff. Those wishing to obtain the details incident to becoming a member are asked to see E. Gainford at the Office cigar store.

SATURDAY LAST DAY TO REGISTER FOR PRIMARIES

Saturday is the last day to register for the presidential primaries. Those who desire to vote should not waste any time in placing their name on the register.

All who have already registered and have not declared their party and desire to support Herbert Hoover, should at once take steps to have their name on the register as a Republican in order to vote for Republican Hoover delegates to the national convention.

The masquerade ball of Court Richmond, Independent Order of Foresters, at Bank hall tonight promises to be one of the jolly events of the week, judging from the interest which the arts has attracted among the young people.

NOTICE

Home Guard meeting on Monday, March 29, at 8 p. m. Co. A Richmond Home Guards will hold their annual get-together smoker. Covers will be laid for seventy-five.
